Skills

- Data Science
- Machine Learning
- Python Programming ●●●●●
- SQL ●●●●●
- R Programming ●●●●●
- Excel ●●●●●
- Tableau ●●●●●
- Git
- Linux
- Applied Mathematics

Profile

Holder of an integrated M.Sc degree in Applied Mathematical and Physical Sciences and a M.Sc in Data Science and Machine Learning. Proficient in Python, SQL, R, Tableau, and Excel. Passionate about continuous growth, with a strong focus on advancing Python skills and applying them to machine learning and optimization processes. Highly motivated to learn, improve and contribute value.

Education

- Data Science and Machine Learning** 2025
[Hellenic Open University, Patras \(online\)](#)
Master's degree in Data science techniques and Machine Learning models using Python and R programming languages.
- Applied Mathematical and Physical Sciences** 2009
[National Technical University of Athens \(NTUA\), Athens](#)
Diploma (Integrated Master's degree - 5-year program) in Applied Mathematics and Physics. Specialization in Materials science and Optoelectronics.

Employment

- Office administrator** May 2010 - Oct 2023
[Athens Mindfit Training Center, Athens](#)
 - Prepared the technical documentation for seminars, ensuring compliance with regulatory requirements mandated by Greek law.
 - Coordinated and managed documentation for business subsidy applications under national and EU-funded programs. Monitored the progress of funding applications and ensured compliance with program requirements.
 - Drafted and compiled comprehensive documentation with attention to detail, required for individuals to obtain legally mandated machine operator licenses.

Personal Data Science / ML Projects

- Generating Fashion MNIST Images with Deep Learning Models** Jul 2025
[Python / Tensorflow](#)
Developed and trained four deep learning models on the Fashion MNIST dataset for image generation, aiming to produce outputs visually similar to the original dataset samples. (<https://fotopoulos.eu.pythonanywhere.com/project3.html>)
- Comparing classifiers using R** Jul 2024
[R / RStudio](#)
Comparing seven renowned classification algorithms on the Titanic dataset, using the R programming language and RStudio software. (<https://fotopoulos.eu.pythonanywhere.com/project2.html>)
- Web Scraping with Python** Oct 2023
[Python / Selenium / BeautifulSoup](#)
Developed an automated scraper for www.BoardGameGeek.com and generated four CSV files containing board game information, structured to form a small relational database. (<https://fotopoulos.eu.pythonanywhere.com/project1.html>)

Hobbies

- Escape rooms
- Board games
- Ping pong

Achievements

Recipient of Academic Excellence Scholarship during Master's Degree in Data Science and Machine Learning

Online courses - Certificates

>> Courses in the 365datascience platform		Present
The Machine Learning Process A-Z (2025)		
Deep Learning with TensorFlow 2 (2025)		
Machine Learning with Ridge and Lasso Regression (2024)		
Machine Learning with Support Vector Machines (2024)		
Machine Learning with K-Nearest Neighbors (2024)		
Machine Learning with Naïve Bayes (2024)		
Machine Learning in Python (2024)		
Data Preprocessing with NumPy (2024)		
Data Analysis with ChatGPT (2024)		
How to Think Like a Data Scientist to Become One (2024)		
Negotiation (2024)		
Working with Text Files in Python (2024)		
Data Cleaning and Preprocessing with pandas (2023)		
Introduction to R Programming (2023)		
Python Programmer Bootcamp (2023)		
Introduction to Jupyter (2023)		
Intermediate Python Programming (2023)		
Introduction to Python (2023)		
Advanced Microsoft Excel (2023)		
Introduction to Excel (2023)		
Intro to ChatGPT and Generative AI (2023)		
Data Analysis with Excel Pivot Tables (2023)		
Starting a Career in Data Science: Project Portfolio, Resume, and Interview Process (2023)		
Communication and Presentation Skills for Analysts and Managers (2023)		
Data Strategy (2023)		
Data Literacy (2023)		
Probability (2023)		
SQL + Tableau (2023)		
Mathematics (2023)		
Introduction to Data and Data Science (2023)		
Introduction to Tableau (2023)		
>> Courses in the Udemy platform		Present
The Git & Github Bootcamp		
Fundamentals of Data Visualization in Tableau		
The Data Science Course: Complete Data Science Bootcamp 2025		
Tableau A-Z: Hands-On Tableau Training for Data Science		
The Complete Python Developer		
The Linux Command Line Bootcamp: Beginner To Power User		
Microsoft Excel 365 - Beginner and Intermediate Training		
Advanced Excel: Power Modeling Bootcamp		
SQL - MySQL for Data Analytics and Business Intelligence
