Applied Mathematics

Physics

Profile

Holder of a diploma in Applied Mathematical and Physical Sciences and an M.Sc in Data Science and Machine Learning. Proficient in Python, SQL, R, Tableau and Excel. Committed to continuous learning and skill enhancement, particularly in Python. Eager to make a meaningful impact in data-driven roles.

Education

- Data Science and Machine Learning** 2025
[Hellenic Open University, Patras \(online\)](#)
Master's degree in Data science techniques and Machine Learning models using Python and R programming languages. (GPA 9.8/10)
- Applied Mathematical and Physical Sciences** 2009
[National Technical University of Athens \(NTUA\), Athens](#)
Diploma (Integrated Master's degree - 5-year program) in Applied Mathematics and Physics. Specialization in Materials science and Optoelectronics.

Work History

- Back Office & Documentation Specialist** May 2010 - Oct 2023
[Athens Mindfit Training Center, Athens](#)
 - Managed and coordinated large volumes of technical and regulatory documentation, collecting, structuring, and validating data to ensure accuracy, compliance with Greek law, and alignment with EU-funded program requirements. Prepared documentation for seminars, training programs, and machine operator licensing applications with precision and consistency, supporting both regulatory compliance and data-driven decision-making.
 - Maintained internal databases and records, tracking financial transactions (invoices, payments) and operational activities with attention to detail.
 - Supported day-to-day IT operations by troubleshooting hardware and software issues, contributing to smooth data and system workflows.
 - Collaborated directly with clients, demonstrating strong problem-solving, communication, and customer-facing skills.

Key Skills Developed: Data organization & validation, regulatory compliance, documentation management, financial record-keeping, reporting, problem-solving, time management, client communication.

Personal Data Science / ML Projects

- 1) Generating Fashion MNIST Images with Deep Learning Models** Jul 2025
[Python / Tensorflow](#)
Designed, trained and evaluated **four deep learning models** on the Fashion MNIST dataset for image generation, aiming to produce outputs visually similar to the original dataset samples.
(<https://fotopoulos.eu.pythonanywhere.com/project3.html>)
- 2) Comparing classifiers using R** Jul 2024
[R / RStudio](#)
Comparing seven renowned **classification algorithms** on the Titanic dataset, using the R programming language and RStudio software.
(<https://fotopoulos.eu.pythonanywhere.com/project2.html>)

Problem Solving

Statistical Analysis

Web scraping

Languages

Greek 

English 

Hobbies

- Escape rooms
- Board games
- Ping pong

3) Web Scraping with Python Oct 2023
[Python / Selenium / BeautifulSoup](#)
Built a custom **web scraper** for [www.BoardGameGeek.com](#) and generated four CSV files containing board game information, structured to form a small relational database.
(<https://fotopoulos.eu.pythonanywhere.com/project1.html>)

Achievements - Awards

Recipient of Academic Excellence Scholarship during Master's Degree in Data Science and Machine Learning

Online courses - Certificates

>> Courses in the 365datascience platform Present

The Machine Learning Process A-Z (2025)
Deep Learning with TensorFlow 2 (2025)
Machine Learning with Ridge and Lasso Regression (2024)
Machine Learning with Support Vector Machines (2024)
Machine Learning with K-Nearest Neighbors (2024)
Machine Learning with Naïve Bayes (2024)
Machine Learning in Python (2024)
Data Preprocessing with NumPy (2024)
Data Analysis with ChatGPT (2024)
How to Think Like a Data Scientist to Become One (2024)
Negotiation (2024)
Working with Text Files in Python (2024)
Data Cleaning and Preprocessing with pandas (2023)
Introduction to R Programming (2023)
Python Programmer Bootcamp (2023)
Introduction to Jupyter (2023)
Intermediate Python Programming (2023)
Introduction to Python (2023)
Advanced Microsoft Excel (2023)
Introduction to Excel (2023)
Intro to ChatGPT and Generative AI (2023)
Data Analysis with Excel Pivot Tables (2023)
Starting a Career in Data Science: Project Portfolio, Resume, and Interview Process (2023)
Communication and Presentation Skills for Analysts and Managers (2023)
Data Strategy (2023)
Data Literacy (2023)
Probability (2023)
SQL + Tableau (2023)
Mathematics (2023)
Introduction to Data and Data Science (2023)
Introduction to Tableau (2023)

>> Courses in the Udemy platform Present

The Git & Github Bootcamp
Fundamentals of Data Visualization in Tableau
The Data Science Course: Complete Data Science Bootcamp 2025
Tableau A-Z: Hands-On Tableau Training for Data Science
The Complete Python Developer
The Linux Command Line Bootcamp: Beginner To Power User
Microsoft Excel 365 - Beginner and Intermediate Training
Advanced Excel: Power Modeling Bootcamp
SQL - MySQL for Data Analytics and Business Intelligence
